

TSA Regulations

Minimus products and clear bags are TSA compliant. Below are basic rules for liquids and website links where you can get more detailed information.

3-1-1 Carry-On Liquids Rules 2018

You are allowed to bring one small bag of liquids, aerosols, gels, creams and pastes through the checkpoint. These are limited to 3.4 ounces or less per container. Consolidating these containers in the small bag separate from your carry-on baggage enables TSA officers to screen them quickly.

3-1-1 for carry-ons = 3.4 ounce (100ml) bottle or less (by volume) ; 1 quart-sized, clear, plastic, zip-top bag; 1 bag per passenger placed in screening bin. One-quart bag per person limits the total liquid volume each traveler can bring. 3.4 ounce (100ml) container size is a security measure.
